About Concrete Pumping Holdings

Concrete Pumping Holdings is a leading provider of concrete pumping services and concrete waste management services in the U.S. and U.K. markets based on fleet size, primarily operating under what we believe are the only established, national brands in both geographies – Brundage-Bone Concrete Pumping, Inc. for concrete pumping in the U.S., Camfaud Group Limited in the U.K., and Eco-Pan, Inc. for waste management services in both the U.S. and U.K. The Company's large fleet of specialized pumping equipment and trained operators position it to deliver concrete placement solutions that facilitate substantial labor cost savings to customers, shorten concrete placement times, enhance worksite safety and improve construction quality. Highly complementary to its core concrete pumping service, Eco-Pan provides a full-service, cost-effective, regulatory-compliant solution to manage environmental issues caused by concrete washout. As of October 31, 2024, the Company provided concrete pumping services in the U.S. from a footprint of approximately 90 locations across 22 states, concrete pumping services in the U.K. from 35 locations, and route-based concrete waste management services from 20 locations in the U.S. and one shared location in the U.K.
